As I am about to leave my position as Director of Central Intelligence, one of the things I can look back on with great pleasure is my association with you and your fellow members of the Science and Technology Advisory Panel. As one comparatively unfamiliar with the world of science and technology, I consider myself fortunate to have had advice and counsel from you and your panel members. Your guidance to [redacted] and me has been of great value and I will recommend that my successor maintain and utilize such sources of "outside" advice and expertise for his own benefit as well as the benefit of the entire Intelligence Community.

Please accept my personal thanks and convey them to your fellow panel members for a job well done and much appreciated.

Best of luck in the future.

Sincerely,

~~George Bush~~

Dear Steve:

As I am about to leave my position as Director of Central Intelligence, one of the things I can look back on with great pleasure is my association with you and your fellow members of the Science and Technology Advisory Panel. As one comparatively unfamiliar with the world of science and technology, I consider myself fortunate to have had advice and counsel from you and your panel members. Your guidance to [redacted] and me has been of great value and I will recommend strongly to Mr. Sorensen that ~~he~~ maintain and utilize such sources of "outside" advice and expertise for his own benefit as well as the benefit of the entire Intelligence Community.

*that my nation*

Please accept my personal thanks and convey them to your fellow panel members for a job well done and much appreciated.

Best of luck in the future.

Sincerely,

George Bush
